

FOR IMMEDIATE RELEASE

WBC Finances U.S. Buyer of Indian-Made Machine Tools

RAJKOT, INDIA and DES PLAINES, ILLINOIS, February 18, 2014 - WorldBusiness Capital, Inc.'s India Lending Team, led by Scott Freiday, Senior Vice President and Managing Director-India, and Rohit Choudhary, Vice President and Director-India, closed an innovative medium-term loan for a U.S.-based technical training school to purchase machine tools manufactured and exported by Jyoti CNC Automation Ltd. of Rajkot, India. The loan, structured with the assistance of WBC's Chief Lending Officer, Rob Monyak, financed the first-ever sale of Indian-made machine tools in the U.S. market.

WBC made a five-figure term loan directly to Choice Career College, a technical school that trains students for well-paying jobs with manufacturers located throughout the Greater Chicago area. The financing helped Jyoti CNC Automation win the order in the face of stiff competition from several other equipment suppliers. WBC's India Lending Team worked closely with both Mr. Mihir Baxi, Jyoti's President of Global Sales, and Mr. Paresh Patel, Manager of Jyoti's U.S.-based distributor, Sunag Corporation (USA), to support this Indian export opportunity.

According to Mr. Freiday, "WBC's loan benefitted all of the transaction parties. Jyoti CNC Automation, a midsize Indian manufacturer, won the export order and was paid in full by WBC upon shipment, saving working capital and significantly lowering its financing costs. Jyoti's U.S. customer, Career Choice College, obtained an attractive financing offer from WBC that created a powerful incentive for them to purchase Indian-made equipment. India's economy was boosted by the export of high value capital equipment with the 'Made-in India' label to the U.S. market. WBC is committed to financing many more transactions like this one."
